The Lexile Framework for Reading (a simple number followed by an "L" - 850L) is a scientific approach to measuring text difficulty and reading ability.

Grade Band	Current Lexile Band	"Stretch" Lexile Band
2–3	450L–725L	420L–820L
4–5	645L–845L	740L–1010L
6–8	860L–1010L	925L–1185L
9–10	960L–1115L	1050L–1335L
11–CCR	1070L–1220L	1185L–1385L

Lexile measures allow you to manage ***reading comprehension***. Matching a reader's Lexile measure to a text with the same Lexile measure leads to an expected 75% comprehension rate. (see diagrams below). A student's Lexile range spans from 100L below to 50L above their Lexile score.

[Lexile.com](http://Lexile.com), [Lexile.com/findabook](http://Lexile.com/findabook) and <http://libguides.coastal.edu/juvenilebooks> are websites which enable you to check the Lexile measure for many texts, to help your student select reading materials at or above the current level. Reading material at a slightly higher Lexile level will help raise your student's comprehension. Selecting material in the "Stretch" Lexile Band will challenge your student to improve.

On our school website, [www.fourthbaptistchristianschool.org](http://www.fourthbaptistchristianschool.org), we have set up a separate webpage entitled “**SUMMER READING**” under the “News & Info” heading. Here you will find all of this information, including links to several book lists we have found online which give the Lexile measures for a lot of different children’s books.
